### ABOUT ME

Friendly and good humored.

Problem solver with a can-do attitude and a thirst for knowledge.

I love finding solutions to [impossible] problems.

### SELF-INTERVIEW

#### What is your definition of success?

A job completed on time, within budget and a customer ready to pick up the phone and call back next time they have a similar problem.

#### What is your super power?

Seeing the solution where everyone else sees only a problem.

#### How do you continue to educate yourself?

YouTube and Google are my good friends, but I also love completing courses and certifications in to learn how to do new things, use new machinery (and fix it when it needs a hand).
